

Say no to Harrold Solar Farm!

- 19,000 solar panels cannot be screened on a site like this
- From the lowest point of the site to the top of the highest solar panel is approx. 17mtr = 55ft = height of a 4 storey block of flats!

To find out more and to read our letter of objection to
Bedford Borough Council go to:

www.cprebeds.org.uk

**CPRE supports solar farms on roofs of industrial buildings , low grade
agricultural land and brownfield sites which can be screened**
